INCIDENT MANAGEMENT SITUATION REPORT WEDNESDAY, JULY 28, 1999 - 0530 MDT NATIONAL PREPAREDNESS LEVEL II

CURRENT SITUATION:

Moderate initial attack activity occurred nationwide. New large fires were reported in the Northern Rockies and Southern Areas. Good progress was accomplished on large fires in Northern Rockies and southern California. The National Interagency Coordination Center mobilized a lead plane, air tankers, helicopters, infrared aircraft, telecommunications equipment, crews and miscellaneous overhead. High to extreme fire indices were reported in Oregon, Washington, California, Montana, North Dakota, Idaho, Utah, Nevada, South Dakota, Wyoming and New Jersey.

NORTHERN ROCKIES LARGE FIRES:

DEVIL STORM, Bitterroot National Forest. A Type II Incident Management Team (Gauger) is assigned. This fire is 35 miles southeast of Darby, Montana. This incident includes the Devils Point and the Storm Ridge fires, which have burned together. The fire is burning in the Frank Church River of No Return Wilderness Area. The fire grew from 12 to 500 acres yesterday. The current threat is to the Hell's Half Acre lookout. Hot, dry weather are hampering control efforts.

INCIDENT NAME	ST UNI7	' SIZE % CTN	EST CTN	TOTAL	CRW E	NG HELI 	!	!!!	\$\$\$ C-T-D

CRA = Crow Agency, BIA.

SOS = Southern Land Office, Montana State.

NORTHERN CALIFORNIA LARGE FIRES:

EAST, Klamath National Forest. A Type II Incident Management Team (Weltch) is assigned. The East fire became a separately managed incident yesterday, due to fire size and an extensive burnout operation. Most resources from Happy Camp ABC have been reassigned to the East fire.

HAPPY CAMP ABC, Klamath National Forest. A Type II Incident Management Team (Weltch) is assigned. The Happy Camp Complex includes the Five fire (50 acres), the Lighting fire (35 acres), the Snag/Cub fire 10 acres, the Stein fire (10 acres), and the Lake (5 acres). Numerous snags continue to cause safety concerns for fire crews.

HAPPY CAMP ABC	CA	KNF	181 50	UNK	186	6	2	5	0	NR	1M

ROCKY MOUNTAIN LARGE FIRES:

BULL ELK PARK, Big Horn National Forest. A Type II Incident Management Team (Hartman) is assigned. This fire is 17 miles west of Dayton, Wyoming in Sheridan County. The combination of heavy dry fuels, unpredictable winds and inaccessible terrain increased the potential for fire spread. The east flank was secured by ground crews and aircraft support.

INCIDENT NAME	ST UNIT 	SIZE % CTN		TOTAL						\$\$\$ C-T-D
BULL ELK PARK	WY BHF	130 10	UNK	171	7	0	2	0	0	NR

SOUTHERN CALIFORNIA LARGE FIRES:

TURTLE, San Bernardino National Forest. This fire is near Interstate 15 and Cajon Pass. The fire is being managed under a Unified Incident Command Type II Team including, G. Gorley for the United States Forest Service, P. Kerrigan for the California Department of Forestry and T. Wellman for San Bernardino County. No significant fire activity occurred during the night. Demobilization will begin today.

INCIDENT NAME			EST TOTAL CTN PERS				
TURTLE	CA BDF	4035 90	7/28 1097	8 109	6	2 NR	327K

EASTERN GREAT BASIN LARGE FIRES:

SOLDIER, Salmon/Challis National Forest. A Fire Use Management Team (Johnson) is assigned. These two lightning ignited fires, thirty miles northwest of Stanley, Idaho, are being managed to accomplish resource objectives. No new information was reported.

INCIDENT NAME	ST UNIT 				TOTAL						
SOLDIER	ID SCF	800	0	UNK	27	1	0	2	0	NR	74K

SOUTHERN AREA LARGE FIRES:

BILL BRANCH, National Forest of Florida. This fire is near Silver Springs, Florida. This fire was controlled, however strong winds pushed the fire across fire lines, increasing for an additional 12 acres. There is potential for increase in fire activity due to the lack of rain.

INCIDENT NAME		SIZE % CTN								
BILL BRANCH	FL FNF	227 90	UNK	3	0	1	0	0	NR	12K

OUTLOOK:

High pressure aloft continues to dominate the weather across the western United States. Monsoon moisture will continue to move northward out of the southwestern states. An upper level trough and low pressure system along the west coast will keep the Pacific Northwest, coastal California and much of the interior dry and warm.

Colorado, Utah, New Mexico, Montana, Wyoming, and eastern Idaho will have isolated to scattered afternoon and evening showers and thunderstorms. This activity will be prevalent over the mountains. Utah and Arizona may experience heavy rain accompanying thunderstorms.

Montana, Nevada, eastern Oregon, Wyoming and western Idaho will experience isolated dry thunderstorms.

The rest of the western states will be dry and mostly sunny, except for morning low clouds and fog along the California and Oregon coasts. High temperatures will be in the 80's to near 100 in most locations, with the exception of 70's in the mountains to near 110 in the desert lowlands.

Eastern Oregon, western Idaho, and Nevada will see relative humidities down to near 10 percent in the afternoon.
